2025 Internal Medicine Comprehensive Update

April 21-25, 2025 | Virtual

Practice Gap: Board certification is the primary mechanism to evaluate and assure competence in medical practice. Internal Medicine certification examinations require a recollection of various specialty and clinical scenarios to demonstrate competence. With the range of therapeutic areas in internal medicine being broader than any other medical specialty, most physicians are unable to maintain best-practice knowledge and skills in all areas of practice. This conference will fill these gaps for general internists and internal medicine subspecialists.

Target Audience: This activity has been designed for general internists, subspecialists and other health professionals attending ACOI's 2025 Internal Medicine Review Course focused on internal medicine review for certification and recertification purposes.

Learning Objectives:

- Revise and refresh knowledge of core topics in internal medicine and its subspecialties through discussion of common and uncommon clinical problems.
- Synthesize and implement changes in clinical practice in accordance with recent advances and guidelines and evidence-based medicine
- Improve diagnostic accuracy across a broad spectrum of internal medicine conditions and apply up-to-date, evidence-based therapeutic strategies to optimize patient care and outcomes
- Demonstrate an understanding of disease pathophysiology, as well as, recognizing and managing acute and life-threatening conditions across broad settings
- Optimizing preventive medicine and risk reduction strategies into your patient care models

Goal: The goal of this activity is to provide internists, subspecialists and other health care professionals clinical updates for exam preparation and for their practices in order to enhance the quality of patient care.

Outcomes: This activity will provide internists and subspecialists updates in the areas of healthcare administration, cardiology, pulmonary, critical care medicine, infectious diseases, gastroenterology, hematology/oncology, internal medicine, etc., and will use exam-type questions integrated into each session, empowering them to be well-prepared for the certifying exam and to optimize their current quality practice management.

Activity Format:

Facilitating learning through cases-driven presentations, guideline updates, evidence, and shared clinical experiences with three key internal medicine specialties (Gastroenterology, endocrinology, infectious diseases, cardiology, pulmonology), nephrology, etc.) will engage learners in a rich educational experience to advance their knowledge and competence across a range of clinical and patient presentations.

CME:

Accreditation and Credit Designation Statements

The American College of Osteopathic Internists (ACOI) is accredited by the American Osteopathic Association to provide continuing medical education to physicians and has designated this live CME activity for a maximum of 37.50 AOA Category 1-A Credits.

The American College of Osteopathic Internists is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The American College of Osteopathic Internists designates this live activity for a maximum of 37.50 *AMA PRA Category 1 Credits*™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Faculty Disclosures:

Unless otherwise indicated, faculty members and moderators have disclosed no relevant financial relationships.

ACOI staff members, activity planners, & CME Committee members have disclosed no relevant financial relationships.

The following faculty have disclosed financial relationships:

Joel Abbott – Boston Scientific - Consulting fee – Consultant; Karl Storz – Consulting Fee - Consultant

Chad Link - Astra Zeneca - Consulting fee – Consultant; Johnson and Johnson - Consulting fee – Consultant; Kiniska - Consulting fee – Consultant

Jack L. Snitzer - Dexcom - Consulting fee – Consultant

David Strobl - Amarin - Consulting fee – Consultant
